The basis upon which Walden Capital will deal with your personal data

When we speak with you about your investment/mortgage/finance and/or insurance requirements we do so on the basis that both parties are entering a contract for the supply of services.

In order to perform that contract, and to arrange the products you require, we have the right to use your personal data for the purposes detailed below.

Alternatively, either in the course of initial discussions with you or when the contract between us has come to an end for whatever reason, we have the right to use your personal data provided it is in our

legitimate business interest to do so and your rights are not affected. For example, we may need to respond to requests from mortgage lenders, insurance providers and our Compliance Service Provider relating to the advice we have given to you, or to make contact with you to seek feedback on the service you received.

On occasion, we will use your personal data for contractual responsibilities we may owe our regulator The Financial Conduct Authority, or for wider compliance with any legal or regulatory obligation to which we might be subject. In such circumstances, we would be processing your personal data in order to meet a legal, compliance or other regulatory obligation to which we are subject.

The basis upon which we will process certain parts of your personal data

Where you ask us to assist you with for example your insurance needs, in particular life insurance and insurance that may assist you in the event of an accident or illness, we will ask you information about your health and medical history (**your special data**). We will record and use your special data in order to make enquiries of insurance providers in relation to insurance products that may meet your needs and to provide you with advice regarding the suitability of any product that may be available to you.

If you have parental responsibility for children under the age of 13, it is also very likely that we will record information on our systems that relates to those children and potentially, to their special data.
